

American Enterprise Institute

The American Enterprise Institute is an organization of scholars and individuals committed to increasing liberty and free enterprise. AEI maintains and upholds these principles with the most advanced levels of research and by rhetoric through factually established debate and argument with the ultimate goal of increasing levels of democracy worldwide.

AEI was founded as a private and non-partisan institution in Washington, D.C. in 1943. It focuses on policy research with specific interest towards issues relating to government, politics, economics, and social welfare.
